

Performworq

Performworq is a straightforward flexible and affordable web based Performance Evaluation Tool with a comprehensive range of facilities that make it suitable for most development needs.

Performworq can be used for either skills analysis or 360 degree assessments.

Performworq utilises a simple online assessment process to allow your staff, suppliers and even end users to be confidentially and anonymously assessed. You can measure how well they are performing against your criteria. Assess staff against knowledge, targets, objectives, competencies or company values, or a combination of all of these in one assessment.

Individuals can have a summary of their assessment as well as a detailed feedback report in the form of a personalised workbook. The workbooks can be tailored using the inbuilt workbook designer.

The powerful **Performworq** reporting tool allows you to interrogate the data of completed assessments so you can identify trends within your workforce.

You can see which individuals or teams are above or below the average or you can identify which competency or area of knowledge needs development.

Performworq is the perfect tool for assessing performance within any organisation:

- Unlimited assessments
- Only one fee per assessee per year
- Identify skill shortfalls
- Maximise your return on training
- Web-based, saving you time and paper
- Accurately assess the effectiveness of individuals and departments
- Improve staff retention
- Focus training and support exactly where it is needed
- Create universal and targeted assessments
- Gives you control and consistency, same criteria, same environment
- Have a reliable system that you can trust to raise the level of competence within your organisation
- Monitor and evaluate staff operating within government legislation or other standards
